

WHITE PAPER

SAITAMARS COMES TO THE LIGHT

The project was born in the middle of the explosion of the DEFI world, from an idea of young entrepreneurs who want to introduce the fundamentals of the crypto world in everyday life, breaking down the preconception that often binds the cryptocurrency to the purposes of mere speculation.

SAITAMARS is created, in fact, to be the very opposite: it is indeed a token by its nature deflationary based on the BSC, as each transaction is subject to commission of 10% so divided: 5% redistributed to all holders (in proportion to the amount of tokens in the wallet). 2.5% is sold in BNB and is combined with the remaining 2.5% of SAITAMARS and deposited in PancakeSwap as liquidity pool. Obviously this discourages the use of SAITAMARS as a speculative tool and makes it a true store of value. And this is only one of its many peculiarities.

WHY SAITAMARS

Streaming platform, DEX, NFT, staking, marketplace, charity, crowdfunding, are just some of the strengths that will be an essential part of the diverse and exciting SAITAMARS ecosystem, and an integral part of our roadmap.

Everyone who joins the community will be able to use SAITAMARS tokens as a payment method to access the network of services available, all while seeing rewards growing in their wallet.

An important part of the project, that we strongly desired, will be played by the interconnection between SAITAMARS and charity: first of all, a percentage yet to be predetermined will be allocated to a wallet (monitored transparently at any time) that will be deputed to fund a charity or a voluntary association every month (perhaps chosen by a survey of community participants).

NFT will be implemented, always linked to the charity project, because it is our intention to involve artists, cartoonists and graphic designers in the creation of new digital works, which will be sold initially through BackerySwap (on Binance) and then on our proprietary marketplace.

Obviously also the social world will be able to connect to SAITAMARS in an absolutely effective and productive way: influencers, streamers, gamers will have the opportunity to use our platform taking advantage of many benefits, bypassing any obstacle thanks to important partnerships.

In fact we have already started an ever-changing marketing campaign, which will start from the world of influencers (both specialized in crypto and not) of Instagram, Youtube, Twitch, Tiktok, Twitter etc, and then expand to the press, websites and online portals, in order to progress in a fast, fluid, wide-ranging way.

OUR GOAL

SAITAMARS 's goal is to go beyond the simple concept of a deflationary token, not limiting the experience to the world of cryptocurrencies only, but fully exploiting its enormous potential.

By rapidly implementing over time a series of services that will become part of the everyday life of the SAITAMARS family, ranging from finance to entertainment (while increasing the value of the token itself), we aim to create a great community and an innovative store of value and charity platform, attentive to important causes around the world.

The concept of "SAITAMARS beyond the crypto" is central to our growth project, because it fully expresses our need to break out of pre-established patterns and create a broad, multimedia, fresh and international project.

TOKENOMICS

Marketing

5%

5% is reserved to for all marketing purposes to promote the project across the crypto space

Liquidity

3%

3% is added to a liquidity pool to help the project naturally grow with volume on the charts

Development Tax

2%

2% will be put towards project development costs to cover all other expenses marketing doesn't
